

One of the top South African Affiliate Publishers in the Country!

Today we are talking about affiliates.

Just about everyone has either a website or an internet blog on the go now days. It is an ever increasing trend that keeps people in touch with each other and makes the world a lot smaller.

But it takes time and money to keep the internet running. Yes sure, the adsl and wap packages are getting cheaper, but they still take a slice out of our very tight budgets in today's worsening economic climate.

How do we then compensate? By either cutting back our entertainment or our food budgets which neither is really great to do.

Here's where I introduce [OfferForge](#) to you.

They have a very large Client base who offers commission for people to advertise on their behalf. These people who advertise are called affiliates and they get paid to display banners and to try and encourage the blog or webpage followers to click on the banners and see what the [OfferForge Clients](#) have to offer. This method is called "Pay Per Click" or PPC. What is more, you don't have to create the banners. [OfferForge](#) have done all that work for you and for each campaign they have a selection of banners or text links that you can choose from to suit the style of your blog or website that will be hosting your links.

Other clients pay a lot of money for these referrals. One client is offering R150 per sale or referral who signs up for their business services! 4 referrals and you have earned R600, just for advertising the Clients banner and getting your followers to advertise their businesses in the Clients directory!

Plus if you bring new Clients to [OfferForge](#), you get paid bonuses!

There are many Clients, or campaigns as we call them, that you can choose from to advertise for. Casinos, banks, auction websites, wellness programmes, Disney Book club, etc.

Payouts are monthly and are paid into a bank account that you nominate!

To see more about the campaigns that are on offer and to sign up for your free affiliate account, go to [OfferForge](#) (www.sewood.co.za/Offerforge) now and set up your blog or website to start earning money for you!
